

# BINGO

---

Have BINGO cards ready with the numbers set up based on number of employees. Could do B = 1-15 or B= 1-30, etc. You can find bingo cards already set up on our Campaign Resources under Games and Activities.

When an employee turns in their pledge card they receive a BINGO card. The sooner an employee turns in a card the more numbers they have access to. This is a great way to get cards back!

Numbers are called out daily via email or displayed in a central location such as a break room at the same time each day for a week. Depending on the number of employees and/or prizes you have you may want to email out numbers more than once a day or go for two weeks.

BINGO can be achieved horizontally, vertically or diagonally.

As soon as someone has a BINGO they need to turn their card into the designated person (Team Leader, UW Committee member, etc).

Prizes can be purchased from your United Way campaign budget, Managers can donate prizes and/or you can use things such as casual day stickers, time off, logo wear, etc. Examples of prizes can be tickets to sporting events or concerts, restaurant gift certificates, gas cards, car washes, etc.

You can assign numbers to the prizes so the BINGO winner picks a number that ties to a prize. That way it keeps it easy and it gives the winner another level of game playing.

You can also go through the cards ahead of time and determine what numbers you are going to call so you don't end up with more winners than prizes.
